

CD-2000BS SlideLift Solar & USB-C Chicken Coop Door

Aluminum Alloy Slide Door and Frame

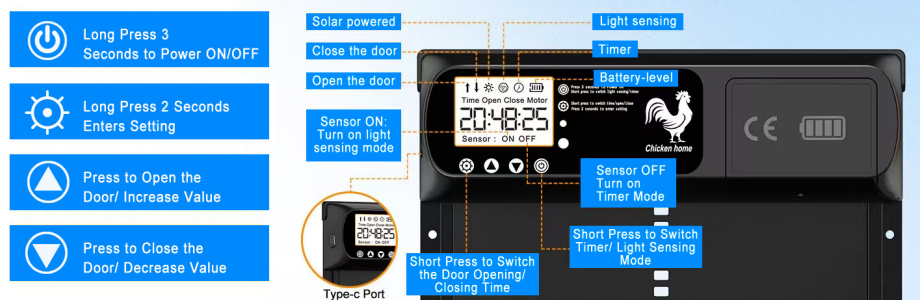

The CD-2000BS SlideLift is a smart, solar-ready automatic chicken coop door designed for convenience, safety, and durability. Powered by 3 × AA rechargeable batteries (not included) with a built-in USB-C charging port and an external 3W solar panel, it ensures continuous power even in remote or off-grid locations. With multiple control options—light sensor, timer, remote control, and manual mode—you can choose the most convenient way to keep your flock safe day and night.

The SlideLift features a sturdy flat aluminum alloy door plate that moves up and down smoothly without the complications of a roller system. Its anti-pinch safety sensor, weatherproof construction, and intuitive LCD display make it a reliable choice for backyard chicken keepers.

- **Dual Power Options** – Supports USB-C charging and external 3W solar panel for continuous, eco-friendly operation.
- **3 × AA Rechargeable Batteries** – Provides cordless convenience (not included due to shipping regulations).
- **4 Opening Modes** – Light sensor, timer, remote control, and manual operation.
- **Anti-Pinch Safety System** – Retracts like an elevator door if obstruction is detected, preventing injuries.
- **Durable Aluminum Alloy Construction** – Provides strength and long service life.
- **Weatherproof Design** – IPX6 rated, operates from -30°C to 80°C, resistant to rain, snow, and harsh outdoor conditions.
- **Large LCD Display** – Clear backlit screen shows operating mode, battery level, and door status.

Large Backlit LCD Display, Simple to Use

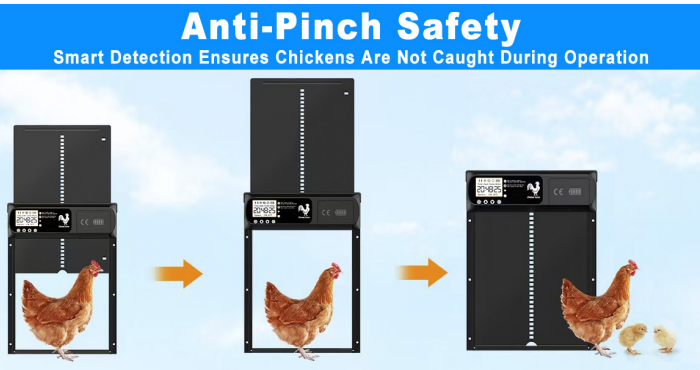

Automatic Operation with Timer & Light Control

Easily program the door to open and close with the built-in timer, light-sensing mode or remote control. Enjoy the freedom to go out or sleep in without worrying about your flock.

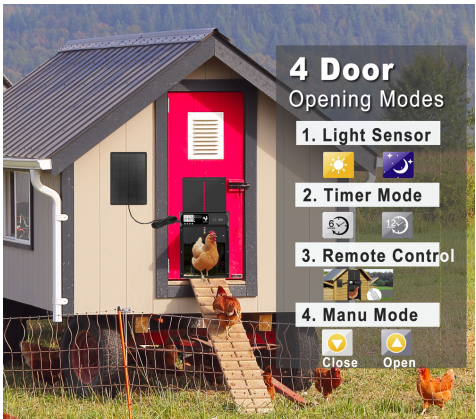

4 Operating Modes

Choose from light-sensing mode, timer mode, manual mode and remote control to suit your needs. Effortlessly manage the door's operation using the convenient control panel.

Anti-Pinch Safety Door

The unique safety sensors function like elevator doors, retracting the door if pressure is detected, ensuring your chickens can safely enter and exit without injury.

Weatherproof & Durable

Constructed from robust aluminum alloy door, this door is designed with an IP X6 rating to withstand harsh weather conditions, operating reliably from -30°C to 80°C. It provides effective protection for your poultry against predators such as coyotes and foxes, all while ensuring safe operation without injury.

Specification

Product Name	SlideLift Aluminum Automatic Chicken Coop Door
Power Source	3W Solar Panel, USB-C charging port, 3 x AA rechargeable batteries (not included)
Materials	Robust aluminum alloy slide door and frame
LCD Display	Large LCD display with backlight
