

SolarGuard 24/7 Automatic Chicken Coop Door

The **SolarGuard** Automatic Chicken Coop Door offers unmatched convenience and safety for poultry management. Featuring a built-in solar panel and 2200 mAh battery, this door operates seamlessly in all weather conditions and can also be charged via extra external solar panel (option). With four operating modes, including timer and light-sensing, and a large, intuitive LCD display, managing your coop has never been easier.

The anti-pinch safety sensors and robust, weatherproof construction ensure your chickens are always protected. Upgrade to the **SolarGuard** automatic door

for reliable, hassle-free operation and peace of mind.

Automatic Operation with Timer & Light Control

Easily program the door to open and close with the built-in timer or light-sensing mode. Enjoy the freedom to go out or sleep in without worrying about your flock.

Reliable Power and Solar Efficiency

Featuring a built-in 2200mAh battery and a 1.3W solar panel, this automatic door ensures continuous operation regardless of weather or power access. For additional flexibility, an optional 3W external solar panel can be added. Thanks to the smart power charging management system, the internal and external solar panels charge without conflict, and the external panel can be positioned for optimal sunlight capture, maximizing efficiency.

Four Operating Modes

Choose from light-sensing mode, remote control mode, manual mode, and timed mode to suit your needs. Effortlessly manage the door's operation using the convenient control panel or remote control.

Large LCD Display

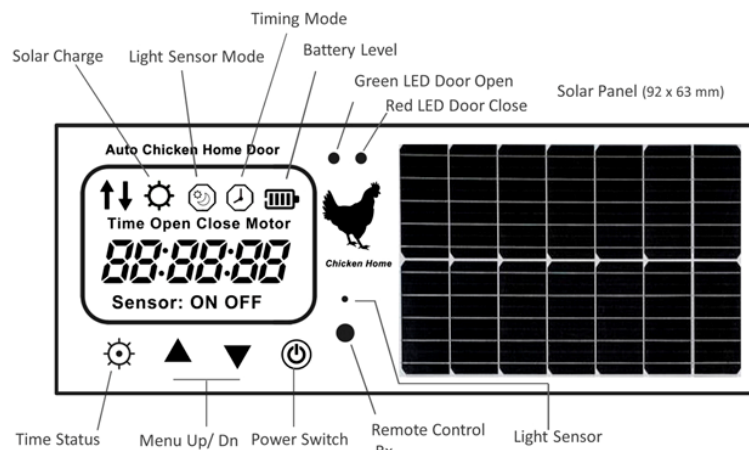

The intuitive, backlit LCD screen clearly displays the current mode, door status, and battery level, making it simple for users of all ages, including the elderly, to operate.

Anti-Pinch Safety Door

The unique safety sensors function like elevator doors, retracting the door if pressure is detected, ensuring your chickens can safely enter and exit without injury.

Weatherproof & Durable

Constructed from robust aluminum alloy and ABS materials, this door is designed with an IP65 rating to withstand harsh weather conditions, operating reliably from -26°C to 55°C. It provides effective protection for your poultry against predators such as coyotes and foxes, all while ensuring safe operation without injury.

Specification

Product Name	SolarGuard Automatic Chicken Coop Door
Battery	Li-ion Rechargeable 2200mAh
Power Source	Built-in 1.3W Solar Panel, Rechargeable Battery; external Solar Panel (option)
LCD Display	Large LCD display with backlight
LED Power Indicator	Green LED door open; Red LED door closed
Light Sensor	Light Sensor
IP Rating	IP65 waterproof
Physical / Box Dim.	350 (L) x 230 (W) x 100 (D) / 255 (W) x 120(D) x 380 (H)mm
Weight	945g (N.W.) / 1.3 kgs (G.W.); 1.53 Kgs (I)
Contents	1 x SolarGuard automatic chicken coop door, 1 x Remote Controller, 1 x User Manual, 1 x screws pack; External 3W solar panel (optional)
